 Sands & Co's circus coming here on Saturday 28 Sept 1850

21st Rain last night & to day 1/2 inch

Rain 2 1/2 inches

**TABULAR STATEMENT**  
 Of the number of Deaths, &c. Reported by the Board of Health of Columbus, from July 24, to September 4, inclusive.

The Board of Health were appointed on the 22d of July, and entered upon their duties and made their first Report on the 24th, from which time, until the 4th of September, inst., they continued vigilantly and faithfully to make reliable and correct daily Reports.

We have gone back over all their Reports, and have, with considerable labor, prepared the following table, showing the number of deaths in each Ward, each day, both of cholera and of other diseases, total number each day, males and females, the number under 10 years of age, over 10 and under 20, over 20 and under 30, over 30 and under 40, over 40 and under 50, and over 50, and the number of colored persons.

It will be seen that the whole number is 303, (205 of Cholera and 98 of other diseases) to which should be added the number that died before the Board of Health was appointed, as well as some who died away from home during the labors of the Board, but were not reported. Some deaths by cholera occurred as early as the 8th or 9th of July, and we have no doubt could the whole number be correctly ascertained, that it would not fall far short of 400.

No. of Reports July 24, to Sept. 4, 1850.	No. of Deaths					Total each day.	Males					Females				
	Cholera.	Cholera.	Cholera.	Cholera.	Other diseases.		Under 10 years of age	Over 10 and under 20	Over 20 and under 30	Over 30 and under 40	Over 40 and under 50	Over 50	Colored.
