DEMOGRAPHIC ABSTRACT for FRANKLIN Co. OHIO

Townships and Places; 1990 Census Edition

Table of Contents

PART 1. INTRODUCTORY MATERIAL

- A. *Preface*
- B. *Regional Overview Map*
- C. *State Locator Map*
- D. *Listing of Selected Factors*

PART 2: MAPS

- A. *Size by Total Population*
- B. *School Age Children*
- C. *Minority Population*
- D. *Persons 18-64 in Poverty*
- E. *SES Indicators*
- F. *Civilian Unemployment*
- G. *Females in Work Force*
- X. *Base map of County Subdivisions*
- Y. *Base map of Places*
- Z. *Base map of Census Tracts and Block Groups*

PART 3: AREA PROFILES

PART 4: APPENDIX:

- A. *Full Data Record for Selected Areas*
- B. *Comparative Scale Graph for Selected Items*
- C. *Data Dictionary from Guide*
- D. *Population Estimates for 1994*

PREFACE

This volume has been prepared to assist the demographic and political researcher in the understanding of census and political geography and to provide useful demographic information to those whose interest is localized. It contains material abstracted and enhanced from the DEMOGRAPHIC GUIDE TO OHIO as well as the DEMOGRAPHIC ATLAS OF OHIO. The entire focus of this report is on one county – FRANKLIN Co., OHIO.

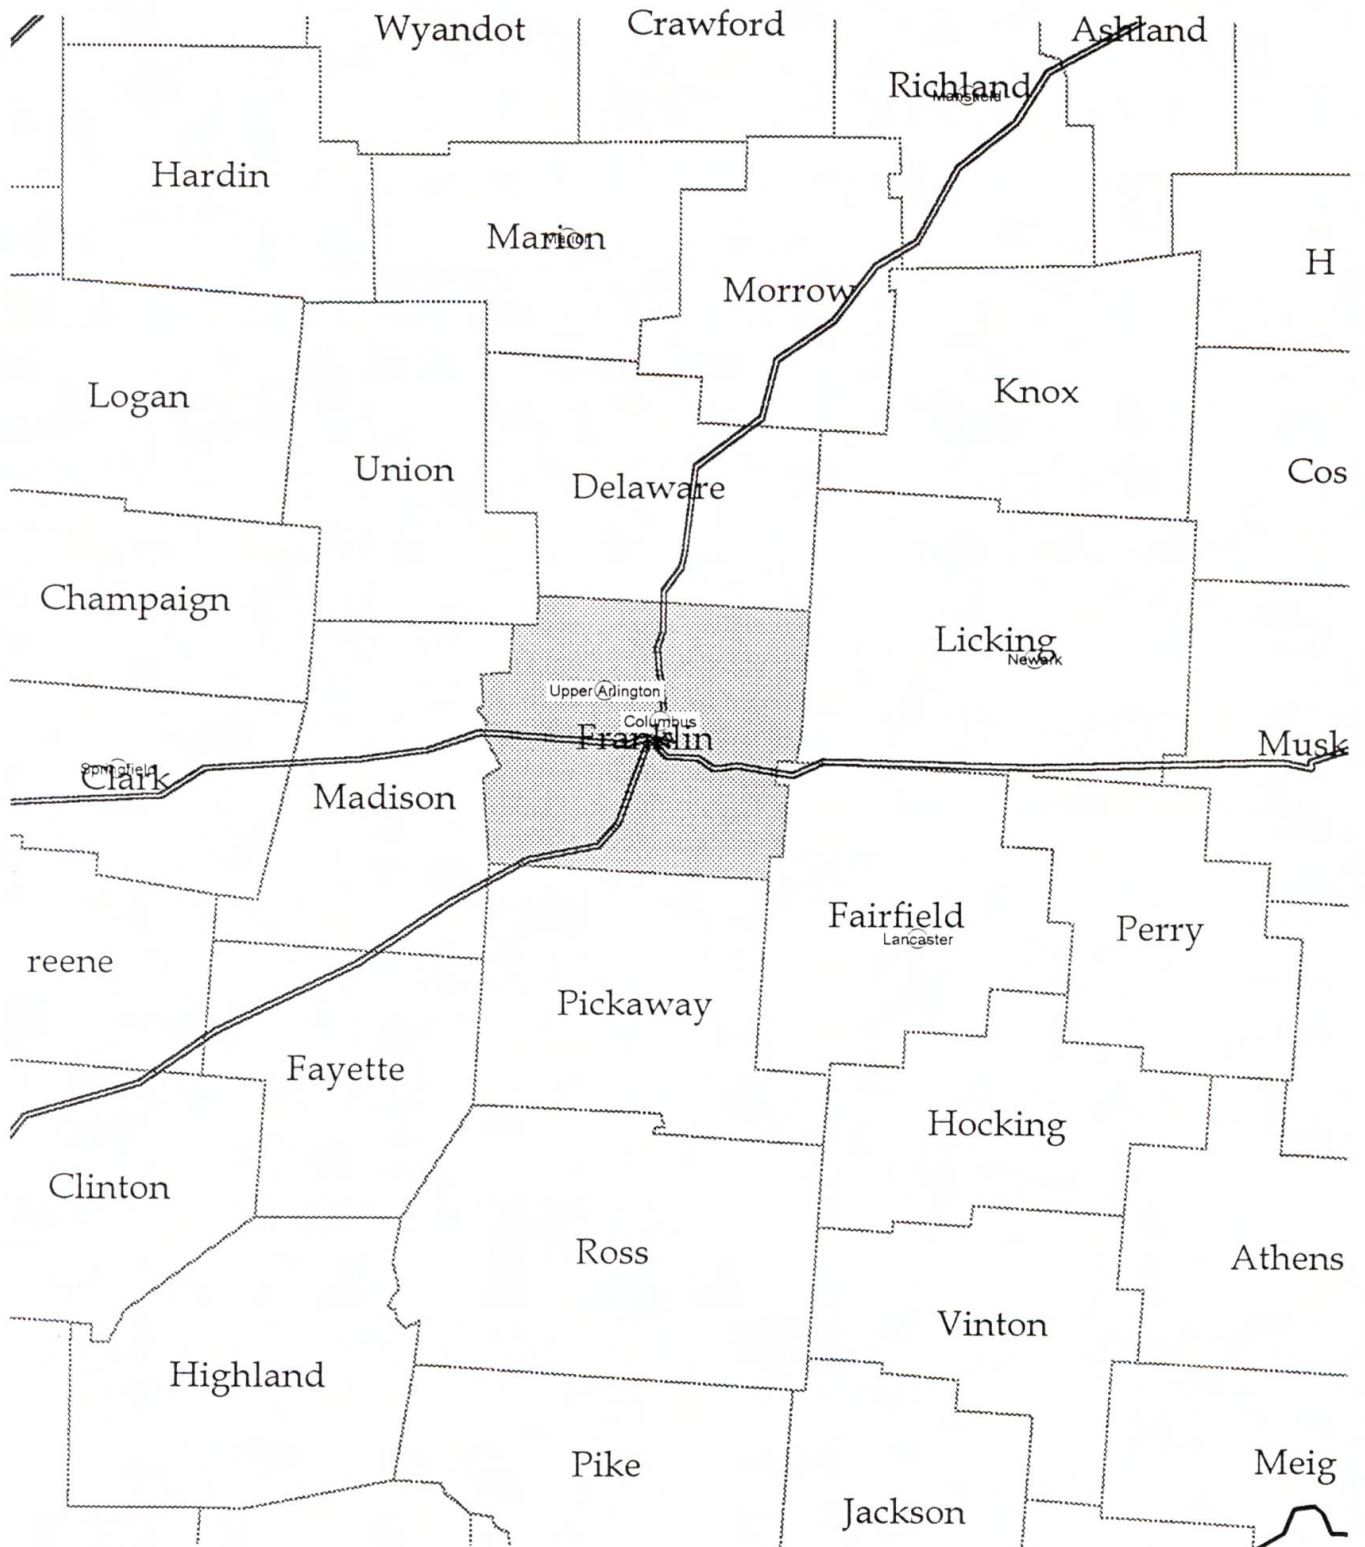

The main GUIDE volume contains census profiles for every county and selected county subdivisions and places in the state. In the Northeast and Midwest, these subdivisions are minor civil divisions (MCDs) generally known as towns, townships, cities or boroughs. In the South and West they are statistical areas known as census county divisions (CCDs). The other high-level for which census data are provided are places, which may be incorporated areas or statistical areas known as census designated places (CDPs). Sometimes places have boundaries coextensive with the county subdivisions in which they lie. Sometimes they are the downtown, or village, area of the subdivision. In some states they may cross county subdivision boundaries as well.

The census profile for the county and complete profiles for every county subdivision and place, are reprinted, or expanded, for this COUNTY ABSTRACT. In addition, several analytical tools are available only in the ABSTRACT. These focus on FRANKLIN Co. and include: thematic maps for 7 representative factors which separate the county subdivisions into three equally sized groups; and, for the two most populous areas in the state, the county, and the state – a comparative scale graph; and a full data record listing. These, in combination with the Data Dictionary, should address most questions on the content of the census demographics selected for inclusion here.

Please refer to the main GUIDE or ATLAS volumes for other reference tools. The GUIDE contains subject rankings and thematic maps displaying the regional distribution for over 50 factors at the county subdivision level. The main ATLAS volume contains base maps and a complete profile for every county as well as the 7 representative demographics for every county subdivision and place in the state.

We hope that you will find this publication to be another useful addition to your understanding of the demography of the State and its census or political subdivisions.

DATA DICTIONARY

Explanation of Data Items

(See RELATIVITY ARROW INDICATORS Section accompanying this table for explanation of Relativity Indicators.)

<i>Item</i>	<i>Description</i>
GEOGRAPHIC ELEMENTS (1990) -- Paragraph 1.	
<i>GEOGRAPHY: Basic Identification</i>	
Area Name	full name of the unit, as listed by the Bureau, although descriptive names for political districts (if included) may have been determined by non-official sources.
Unit Type	type of political or statistical area as classified by the U.S. Bureau of the Census, or, political districts as determined by the state legislature or other entity responsible for districting. <i>Note: MCD- Minor Civil Division; CDP- Census Designated Place; CCD-Census County Division</i>
ISR	Internal State Regions (ISRs): as designated by Polidata; areas of the state, consisting of groups of counties, largely based upon geographic areas or travel regions; every county is assigned to an ISR.
<i>MARKETS: County Groupings for National Regions</i>	
MSA	Metropolitan Statistical Areas (MSAs): as designated by the Office of Management and Budget June 30, 1995; groups of counties (towns in New England) for statistical analysis and federal funding; every area is NOT assigned to an MSA.
DMA	Designated Market Areas (DMAs): as designated by A.C. Nielsen Co. for 1994; groups of counties used for media market analysis; every county is assigned to a DMA and only a handful are split.
<i>RANK: Size of Unit within the Geographic Hierarchy</i>	
Rank	ranking of this unit among similar hierarchical units in the next highest unit of the hierarchy; i.e., counties within state, minor civil divisions (MCDs) within county, census designated places (CDPs) within county. <i>Note: CDPs may cross county and/or MCD lines</i>
% Urban	percentage of total population which lives in areas defined as urban by the Bureau; rural would be 100.0 minus this percentage.
GENERAL POPULATION CHARACTERISTICS (1990) -- Paragraph 2.	
<i>POPULATION, VOTING AGE and SEX</i>	
Population(1990)	100% count of persons for this geographic area.
VAP	Voting Age Population, i.e., number of persons of Voting Age (18+yrs) and the percentage which this number is of the total population
Sex	percentage of total persons which is female; male would be 100.0 minus this percentage.

<i>Item</i>	<i>Description</i>
GROUP QUARTERS: Persons living in Institutions	
<i>Note: only listed when over 1% of pop.</i>	
% Pop.	percentage of total persons living in group quarters of some kind; these persons are included in most universes for the characteristics
% Corr.	percentage of persons in correctional institutions
% Nurs.	percentage of persons in nursing homes
% Ment.	percentage of persons in mental hospitals
% Juve.	percentage of persons in juvenile institutions
% Coll.	percentage of persons in college dormitories
% Mili.	percentage of persons in military quarters
% Shel.	percentage of persons in emergency shelters
% Strt.	percentage of persons in visible street locations
AGE: Age Groups	
% 5-17	persons aged 5-17 (SCHOOL AGE) in 1990 as a % of all persons (P013)
% 18-24	persons aged 18-24 (COLLEGE AGE) in 1990 as a % of all persons (P013)
% 25-44	persons aged 25-44 (TRANSITIONAL) in 1990 as a % of all persons (P013)
% 45-64	persons aged 45-64 (MIDDLE AGE) in 1990 as a % of all persons (P013)
% 65+	persons aged 65 and over (SENIOR CITIZENS) in 1990 as a % of all persons (P013)
EDUCATION: Educational Attainment	
% < 9th	persons with less than a 9th grade education as a % of persons 25+ years (P057)
% 9-12	persons with education above 9th grade but without a diploma (NOT INCLUDED IN ANY DATA items)
% HS Grad	persons with high school diploma or equivalent, or higher, as a % of persons 25+ years (P057)
% Some College	persons with education above high school but without a bachelor's degree (NOT INCLUDED IN ANY DATA ITEMS)
% College	persons with a bachelor's degree, or higher, (includes all those in %PostGrad) (P057)
% Post Grad	persons with a graduate or professional degree (P057)
MARITAL STATUS	
% Never	percentage of persons 15+ years never married (P027)
% Now	percentage of persons 15+ years now (1990) married (P027); includes spouse present and spouse absent
% Wid.	percentage of persons 15+ years widowed (P027)
% Div.	percentage of persons 15+ years divorced (P027)
MILITARY: Military and Veteran Status	
% Military Now	persons now in the Armed Forces as a % of persons 16+ years (P064)
% Veteran	persons who were in the Armed Forces previously as a % of persons 16+ years (P064)
% Vietnam	persons whose military service included service during the Vietnam era (pre-May 1975) (P065)
BIRTH: Nativity and Citizenship	
% Native Pop.	persons born in their state of residence as a % of all persons (P042)
% VAP Non Citizen	persons foreign born and not a citizen as a % of persons of voting age (P037)

Item	Description
ANCESTRY: Ethnic Background	
<i>Note: when listed, % based upon total responses (includes single and multiple responses), not total population.</i>	
Ancestry Groups	<p>Possible groups include: ARAB-Arab; AUST-Austrian; BELG-Belgian; CANA-Canadian; CZEC-Czech; DANI-Danish; DUTC Dutch; ENGL-English; FINN-Finnish; FREN-French; FRCA-French Canadian; GERM-German; GREE-Greek; HUNG-Hungarian; IRIS-Irish; ITAL-Italian;</p> <p>LITH-Lithuanian; NORW-Norwegian; POLI-Polish; PORT-Portuguese; ROMA-Romanian; RUSS-Russian; SCIR-Scotch-Irish; SCOT-Scottish; SLOV-Slovak; SUBA-Subsaharan African; SWED-Swedish; SWISS-Swiss; UKRA-Ukrainian; USA; U.S. or American; WELS-Welsh;</p> <p>WInd-West Indian; YUGO-Yugoslavian; HISP-race of Hispanic Origin groups; OTH-Other</p>

MINORITY VAP: Minority Populations for Voting Age Population (VAP)

Note: only listed when over 5% of VAP

% Min.	total of persons who are not non-Hispanic White (PL94)
% Blk.	non-Hispanic Black persons as a % of persons of voting age (18+ years) (PL94)
% Hsp.	Hispanic persons as a % of persons of voting age (18+ years) (PL94)
% Aml.	non-Hispanic American Indian, Eskimo, and Aleut persons as a % of persons of voting age (18+ years) (PL94)
% Asn.	non-Hispanic Asian persons as a % of persons of voting age (18+ years) (PL94)
% Oth.	non-Hispanic other persons as a % of persons of voting age (18+ years) (PL94)

INCOME and LABOR FORCE (1990) -- Paragraph 3.

LABOR FORCE: Employment Factors

% Work in County	workers who worked in their county of residence as a % of all workers 16+ years (P045)
% Unemployed ('89)	unemployed civilians as a % of persons 16+ years (P070)
% Women in Force	female persons in the labor force as a % of persons 16+ years (P070)
% Force women	female persons in the labor force as a % of persons in the labor force (P070)

WORK SECTOR: Classification of Worker by Economic Sector

% Private	workers for private for profit/not-for-profit wage/salary employers as % of employed persons 16+ years (P079)
% Govt.	workers for federal, state and local government as a % of employed persons 16+ years (P079)
% Self	workers who are self-employed as a % of employed persons 16+ years (P079)
% Family	workers who are unpaid family workers (NOT INCLUDED IN ANY DATA ITEMS) (P079)

INDUSTRY: Industry of Occupation

% Agr.	persons employed in agriculture, forestry, fishing and mining as a % of employed persons 16+ years (P077)
% Con.	persons employed in construction as a % of employed persons 16+ years (P077)
% Man.	persons employed in manufacturing, durable and non-durable, as a % of employed persons 16+ years (P077)
% Tra.	persons employed in trade, wholesale and retail, as a % of employed persons 16+ years (P077)
% Fin.	persons employed in finance, insurance, and real estate, as a % of employed persons 16+ years (P077)
% Prof.	persons employed in professional and related services, including health and education, as a % of employed persons 16+ years (P077)
% Oth.	persons employed in communications, transportation, business and repair services, personal services, entertainment, recreation, and public administration (NOT INCLUDED IN ANY DATA ITEMS) (P077)

<i>Item</i>	<i>Description</i>
<i>OCCUPATION: Type of Job within Industry (P078)</i>	
% Mgmt./Prof.	percentage of employed persons 16+ years in executive, administrative and managerial or, professional specialty occupations
% Tech./Admin.	percentage of employed persons 16+ years in technical, sales, administrative support occupations
% Serv.	percentage of employed persons 16+ years in service occupations for private household, protective service, or other service occupations
% Farm.	percentage of employed persons 16+ years in farming, forestry and fishing occupations
% Prec.	percentage of employed persons 16+ years in precision production, craft , repair occupations
% Oper.	percentage of employed persons 16+ years in operations occupations: e.g., machine operators, transportation, handlers, laborers
% White	percentage of employed persons 16+ years in white collar occupations (% Mgmt./Prof.and % Tech./Admin.)
% Blue	percentage of employed persons 16+ years in blue collar occupations (% Prec. and % Oper.)

COMMUTING TIME: Time to Travel to Work (P050)

% < 30 min.	percentage of workers 16+ years whose total commute is under 30 minutes
% 30-60 min.	percentage of workers 16+ years whose total commute is between 30 and 60 minutes
% > 60 min.	percentage of workers 16+ years whose total commute is over 60 minutes

LEAVE FOR WORK: Time Leaving Home for Work (P052)

% < 5 am	percentage of workers 16+ years who leave for work before 5 am
% 5-6 am	percentage of workers 16+ years who leave for work between 5 and 6 am
% 6-7 am	percentage of workers 16+ years who leave for work between 6 and 7 am
% 7-8 am	percentage of workers 16+ years who leave for work between 7 and 8 am
% 8-9 am	percentage of workers 16+ years who leave for work between 8 and 9 am
% > 9 am	percentage of workers 16+ years who leave for work after 9 am, or work at home

INCOME: Household Income in 1989 (P107)

% < 15k	Households with income under \$15,000 in 1989 as a % of all Households
% 15-35k	Households with income from \$15,000 to \$34,999 in 1989 as a % of all Households
% 35-50k	Households with income from \$35,000 to \$49,999 in 1989 as a % of all Households
% 50-100k	Households with income from \$50,000 to \$99,999 in 1989 as a % of all Households
% 100-150k	Households with income from \$100,000 to \$149,999 in 1989 as a % of all Households
% > 150k	Households with income over \$150,000 in 1989 as a % of all Households
Median	Median Household income in 1989 (half of households above, half below, this figure)

POVERTY STATUS: Persons Below the Poverty Line (P117)

% < 18 yrs.	percentage of persons, for whom poverty status is determined, who are below the poverty level and are under 18 years of age
% 18-64 yrs.	percentage of persons, for whom poverty status is determined, who are below the poverty level and are between 18 and 64 years of age
% > 65 yrs.	percentage of persons, for whom poverty status is determined, who are below the poverty level and are 65+ years of age

<i>Item</i>	<i>Description</i>
<i>INCOME TYPE: Selected Types of Income (P093-P096)</i>	
% Int.	percentage of households with interest income
% S.S.	percentage of households with Social Security income
% Pub.	percentage of households with Public Assistance income
% Ret.	percentage of households with retirement income

HOUSING (1990) -- Paragraph 4.

HOUSING: Tenure (H008)

% Own	percentage of occupied housing units owned by occupant
% Vacation	percentage of occupied housing units used as recreational or occasional use

HOME VALUE: Self-Estimated Market Value (H061)

Note: of Owner-Occupied Housing Units

% < 50k	homes valued under \$50,000 as a % of all owner-occupied housing units for which value was specified
% 50-100k	homes valued from \$50,000 to \$99,999 as a % of all owner-occupied housing units for which value was specified
% 100-200k	homes valued from \$100,000 to \$199,999 as a % of all owner-occupied housing units for which value was specified
% 200-300k	homes valued from \$200,000 to \$299,999 as a % of all owner-occupied housing units for which value was specified
% > 300k	homes valued over \$300,000 as a % of all owner-occupied housing units for which value was specified
Median	median value for all owner-occupied housing units, one-half above, half below, this figure

UNITS IN STRUCTURE: Number of Housing Units in Building (H020)

% 1	percentage of housing units which are one unit, attached or detached
% 2-4	percentage of housing units which are 2, 3, or 4 units (not included in any data items)
% > 4	percentage of housing units which are more than 4 units in the building
% Mobile	percentage of housing units which are mobile homes or trailers

YEAR BUILT: Year Housing Unit was Constructed (H025)

% < '50	percentage of housing units which were built before 1950
% '50-'70	percentage of housing units which were built between 1950 and 1970
% '70-'80	percentage of housing units which were built between 1970 and 1980
% '80-'90	percentage of housing units which were built between 1980 and 1990
Med.	median year in which housing unit was built, half above, half below, this year

PERSONS IN HOUSEHOLD: Household Size (P016)

% 1	percentage of households which have only one person
% 2	percentage of households which have only two persons
% 3-4	percentage of households which have only three or four persons
% 5+	percentage of households which have more than four persons

<i>Item</i>	<i>Description</i>
HOUSEHOLDS WITH CHILDREN: Presence of Children	
% All	percentage of households with children under 18 years
% Couple	percentage of households with married couple and children under 18 years
% Other	percentage of households with other family situation and children under 18 years

SES INDICATORS (1990) -- Paragraph 5.

Note. SES Indicators (several tables) an indication of higher-level Socio-Economic Status Indicators

SES AVERAGE: Summary of several factors

Educ.	comparison of %College degree (or above) with same for state, expressed as percentage of state value
Prof.	comparison of %Prof. specialty industry with same for state, expressed as percentage of state value
Income	comparison of HH Income, % > 100k, with same for state, expressed as percentage of state value
Home Value	comparison of Home Value, % > 200k, with same for state, expressed as percentage of state value
Average	average of the above 4 values; to provide a quick review for several SES indicators for the area

HOME PURCHASE INDEX: Difficulty in Buying a Home

Index	the Median Home Value divided by the Median HH Income, providing a relative, yet rough, indication of how difficult it would be to buy a home in the area <i>(This measure is greatly affected by the presence of local income; e.g., vacation spots will have a high HPI if the local income is largely service based.)</i>
-------	---

RELATIVITY (ARROW) INDICATORS:

Note. Provided for comparison to data values for the state.

Note: to provide some relative perspective to otherwise plain vanilla numbers, arrow indicators are generally included for most items. These indicators compare the value for the geographic unit with the value for the state. The arrow or triangle listed next to the percentage or index value indicates the comparison as below: Note that the comparability is determined by a ratio of the state value to the unit value. for example, a unit value of 60.0% would be 20% above a state average of 50.0%, NOT 10% above.

(up triangle)	▲	much higher than state average; for most items this means the unit value is more than 20% ABOVE the state average
(up arrow)		somewhat higher than the state average; for all items this means the unit value is more than 10% ABOVE the state average
no indicator		about the state average; for all items this means the unit value is no more than 10% higher, or 10% lower, than the state average
(down arrow)		somewhat lower than the state average; for all items this means the unit value is more than 10% BELOW the state average
(down triangle)	▼	much lower than state average; for most items this means the unit value is more than 20% BELOW the state average

Notes on Averages and Indices:

SOCIO-ECONOMIC STATUS (SES) INDICATORS: One means by which hundreds of social and economic factors can be summarized is to generate averages and indices based upon a selection of factors. One such broad-based measurement of Socio-Economic Status (SES) Indicators is the POLIDATA SES Average. By comparing the upper echelon of several factors, and then comparing these to the state average for the same factors, we can assign an estimation of the Socio-Economic Status to any given area.

The factors included are a) college degree or above; b) professional specialty industry (e.g., doctors, lawyers, etc.); c) household income above \$100,000; and d) home value above \$200,000. These same factors for any area are compared, factor-by-factor, to the state's average for that factor. This result is then averaged to produce a composite index for all four factors.

Following this note is a table with a few examples of how this average is calculated. Note that there are really two types of components in the four factors. The first two, % College Graduate and % Professional specialty industry, mostly self-determined factors which do not vary as much throughout the state as the remaining two factors—income and home value, mostly market-determined.

Many small towns and cities will still have their proportion of the well-educated and professionals. However, the degree to which they have high income and high home values (relative to the state) will depend largely upon location, usually their presence in a metropolitan area. For example, numerous areas exist with a share of college graduates and professionals about the same as the state yet without the income. Reviewing the SES values for the first two factors will indicate these areas.

HOME PURCHASE INDEX (HPI): Another factor related to a broad-based SES Indicator is the Home Purchase Index. This is a rough measure of how difficult it is to buy, or maintain, a home in the area. It is calculated by dividing the Median Home Value (for owner-occupied units) by the Median Household Income. The measurement is rough but provides a relative perspective and can be applied consistently across any geographic area. That is, an HPI of 6.0 would at least indicate a higher degree of difficulty in the purchase of a home there as opposed to an area with an HPI of a lower value, for example, 3.0.

The HPI is a measure of the congruence of income and home value. For example, vacation areas with high home values but low local income will be the areas where home purchase is the most difficult. This is also affected by the degree to which the home value is based only on owner-occupied units. Many vacation areas include units which are not owner-occupied. On the other hand, even areas with high home values may have low HPI values if the local income is consistent.

Socio-Economic Status (SES) Average
Examples for OHIO

Area	(A) % College Graduates	(B) % of State Value	(C) % Prof. Specialty	(D) % of State Value	(E) % High Income	(F) % of State Value	(G) % High Home Value	(H) % of State Value	(I) Average of all 4
State	17.00	100	23.40	100	3.00	100	2.70	100	100
The Village of Indian Hill City Hamilton Co.	69.20	407	30.80	132	63.60	2120	86.90	3219	1469
Tory Township Richland Co.	21.50	126	25.00	107	4.20	140	1.20	44	104
Belpre City Washington Co.	12.50	74	19.70	84	1.70	57	0.00	0	54

Note: Calculations may be slightly different than the book due to rounding in these examples.

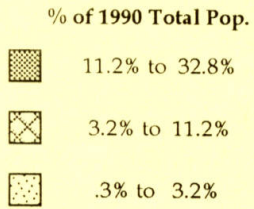

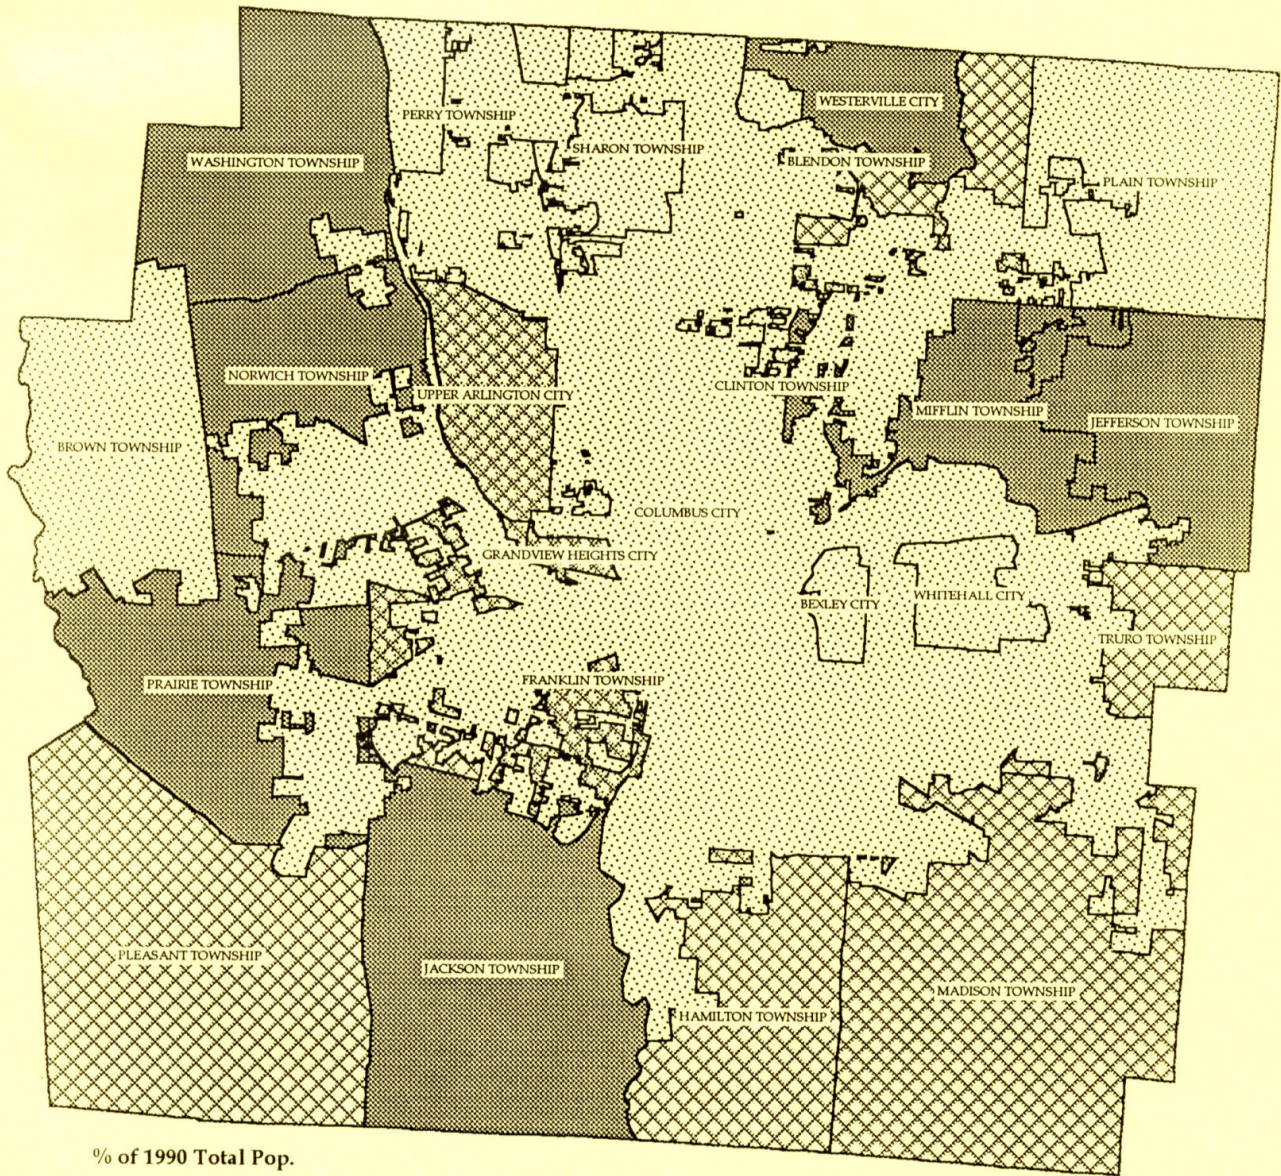

Columns: (A) Paragraph 2-Population: Education: % College
(C) Paragraph 3-Income & Labor Force: Industry: % Prof.
(E) Paragraph 3-Income & Labor Force: HH Income: % 100-150k + % > 150k
(G) Paragraph 4-Housing: Home Value: % 200-300k + % > 300k

Home Purchase Index (HPI)
Examples for OHIO

Area	Median Home Value	Median Household Income	Home Purchase Index
State	\$62,900	\$28,706	2.2
The Village of Indian Hill City Hamilton Co.	\$421,300	\$132,244	3.2
Athens City Athens Co.	\$68,200	\$14,350	4.8
Beavercreek Township Greene Co.	\$97,700	\$49,554	2.0
Montgomery Township Wood Co.	\$41,600	\$29,010	1.4

POPULATION GROWTH, 1990-1994, as % of 1990 Total Population

FRANKLIN COUNTY

MCDs divided into 3 equal groups

Refer to Gazetteer for profile material

Population Estimates, 1990-1994; Projected to 2000

Franklin Co. Ohio

A rough straight-line estimate based solely upon the total net increase/decrease from 1990-1994, annualized and extended out to 2000.

Projection does not consider any other factors, e.g., differential rates between years and among population subgroups; based upon annual estimates by the Bureau of the Census.
